

BIODIVERSITY CLUB ACTIVITIES - (2017-2018)

- The main focal point of the biodiversity club is to design and upgrade knowledge, interest and skills to solve various biodiversity issues. To create awareness on tiger depletion in India “**International Tiger’s Day**” was organized on 29.07.2017.
- An eco-awareness trip was organized on 24.02.2018 for the Biodiversity members and they visited Kovai Kutaralam, Isha yoga and Adhiyogi statue.
- **Organic farming** is an alternative agricultural system which continues to be developed by various organic agriculture organizations today. To understand the importance of organic farming an eco awareness programme was organized on 03.03.2018 to Sathyamangalam. The students enjoyed the trip and they visited an organic farm, Bannariamman temple and koduveri dam.
